50% of one's education  
is located inside the  
classroom and the other  
50% is located outside  
the classroom's four  
walls

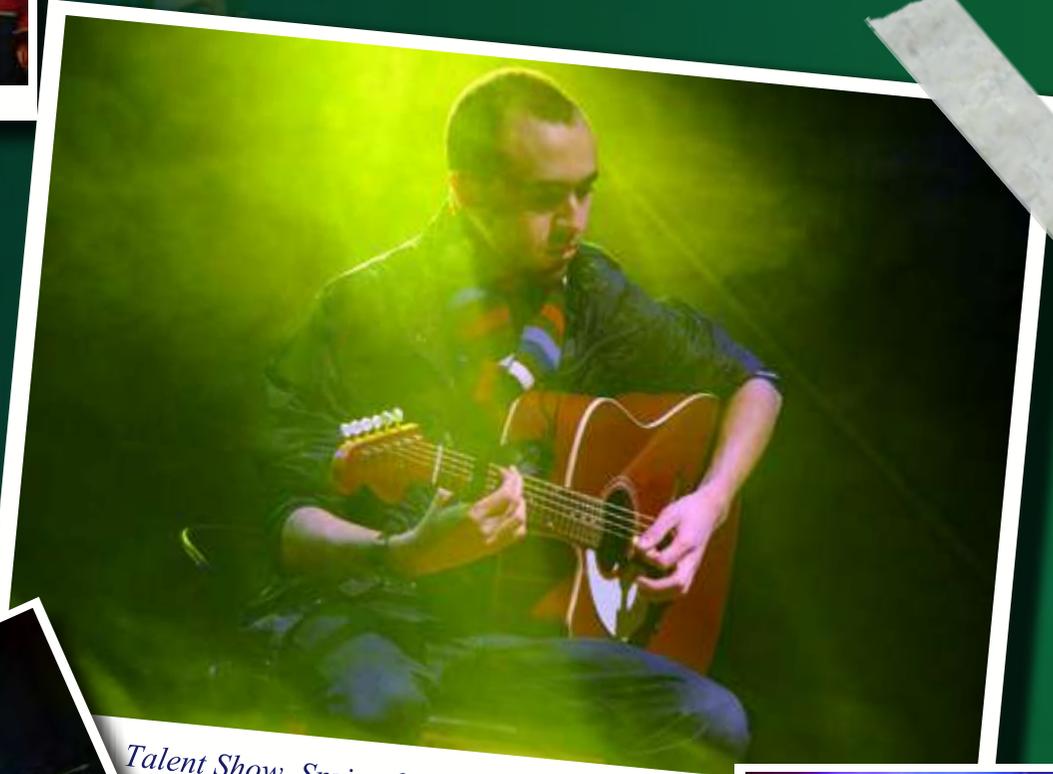

*-by John Fitzgerald Kennedy-*

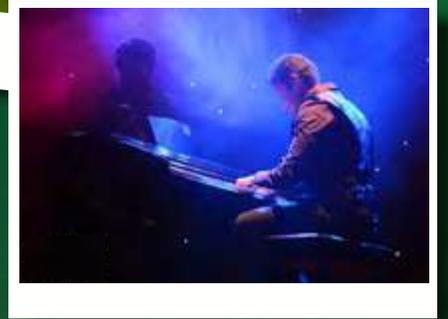

The Student Activities Office (SAO) provides students with different opportunities to engage in cultural, educational, social and recreational activities, which are an integral part of the living-learning community at AUJ. Students develop their talents, leadership abilities and organizational skills through their involvement and contribution to various clubs and students organizations.

Since 1995, SAO has endeavored to make of students active members in their community contributing to local and national development. SAO supervises and encourages co-curricular activities by organizing, in collaboration with student organizations, different events throughout the whole year including not limited to: Film screenings, international days, theatre plays, music nights, national and overseas trips, fairs, conferences and educational workshops.
